100% KILIMANJARO TREK AND SAFARI ITINERARY

Day 1 – Arrive at Kilimanjaro International Airport at Moshi Tanzania. Our team meet you and transfer you to your hotel, briefing you on the local area.

Day 2 – This is a day to relax, allowing you to familiarise yourself with the local area. There will be a two hour round trip out to see the waterfalls (should you desire). On your return our head guide will brief you on the trek and complete an equipment check to ensure your gear is in order. This affords you the afternoon to prepare and relax.

Day 3 – We drive one hour from Moshi to the gates of the Machame trek (1790m). It is here you meet our local team of guides and porters. The first section of the route climbs steadily and passes through magnificent, dense rainforest.

Day 4 – Our route continues up through the forest until we reach a steep plateau. From here is where you will have the most magnificent views of the mountain. You can see Mt Meru rising high above Arsusha town in the distance. We continue on to our night location at Shira Camp (3845m)

Day 5 – The terrain changes and we begin walking on high moorland. We traverse the southwest side of Kilimanjaro, passing under the Lava Tower and the final section of the Western Breach. This day is also used as an acclimatisation day, reaching an altitude of 4600m prior to descending to Barranco camp at 3,600m. This is known as ‘walk high, sleep low’ to help you better acclimate.

Day 6 – Our day starts by descending into the start of the Great Barranco, a huge ravine. We exit steeply, prior to walking up the Great Barranco Wall, this divides us from the southeastern slopes of Kibo. You climb over rock, not technically but it will be long and tiring. You pass underneath the Heim and Kersten glaciers, heading towards the Karanga valley. You have a steep climb up from Karanga valley to our night’s camp at Karanga camp, set at 3963m. For those feeling strong you can head for a mid-afternoon acclimatisation trek to 4200m, prior to descending back to camp for the night.

Day 7 – After a good night’s rest and breakfast, we set off on our walk to Barafu camp at 4640m. The climb will take us across desolate scree slopes with no vegetation. It’s a tough steep walk made even more difficult by the altitude. Upon your arrival at camp, you will eat and spend the afternoon resting. We have an early dinner and then try sleep, you will be getting up at between 11pm and 12pm to start the climb to the summit.

Day 8 – We begin around midnight, walking steeply upwards to the summit glaciers, we climbing the scree for 4 to 5 hours, gaining altitude quickly - the views are spectacular. We seek to arrive on the crater rim at Stellar Point (5,739m) as the first rays of the sun hit us. Spectacular ice cliffs within the crater surround us and the views to Jagged Mawenzi peak and beyond are breathtaking. Another hour walking takes us to the summit. Uhuru Peak (5,895m). We begin our descent by returning to stellar point then descending on scree slope and track back to Barafu Camp for breakfast, before heading down to Mweka camp and spend the night in camp reflecting on what we just achieved.

Day 9 – A gentle trek takes us down through the rainforest to Mweka Gate, where we complete park formalities. We will then be met by our vehicles and return to the Hotel for a welcome shower and cold beverage and will be staying in your hotel.

Day 10 – For those not completing the safari, we transfer you to the airport. Arrival day of those participating only on the safari.

Day 11 – You will be picked up after breakfast at your hotel in Arusha and depart for your 2-hour drive to Tarangire around 8 am. Upon arrival, you will begin your game viewing experience in this magnificent park, which is famous for its large collection of baobab trees, mammal population, and a wide variety of bird species. It also features one of the largest concentrations of elephants in the country. You will spend the night at Tarangire sopa lodge.

Day 12 – Today we will head out to the Serengeti National Park. The world's most famous wildlife park that hosts the most spectacular migration of the Wildebeest. With the endless sea of grass in Serengati, these magnificent views will be imprinted in your mind for life. Along the way you will spot Maasai folk, huge Boabab trees and incredible wildlife.

Day 13 - Game drive again and overnight at Tortilis camp

Day 14 - Upon arrival at the park, you'll sign in and then begin the winding descent into the caldera. You'll stop at the Ngorongoro viewing area for a stunning view of the caldera's sheer scale before continuing to the crater. This is the best place in the northern circuit to see the black rhinoceros and the cape buffalo, but is home to the entirety of the Big Five. Afterwards heading back to Arusha National Park which is home to Africa's largest giraffe population. Tonight is your final night in Tanzania, spending it celebrating and reflecting before embarking on your homeward journey tomorrow.

Day 15 – Departure Day. Today is a sad day for us, as we have to say goodbye for now. We arrange with you and the hotel when you are required to be at the airport, and we have you checked out at the time which suits your car to take you to the international airport for your departure from Kilimanjaro International Airport. For those who have time, there is a tour in Arusha town and time to visit some local shops prior to departing to the airport.

Please note: While we endeavour to maintain this exact itinerary, there may be occasions where in the interest of safety or for the betterment of the experience where we alter the itinerary. Please be aware this is always completed in the best interest of your adventure and experience.
